Description

- > The new special aerator CSP mixing air to the water and thus form a smooth, soft water jet that does not splash, but pearls.
- > The aerated water stream supports the energy and water-saving operation of E-mini instant water heaters, E-compact instant water heaters, and small storage water heaters.
- > The aerators are manufactured with high-precision plastic technology and are available as inserts or complete with a fitting tap adapter.

Construction of a aerator

Use of the right aerator:

Aerator insert for tap adapter M 22/24 at the tap

CSP 3 (< 2l / min): Part no. 0010-00421

CSP 6 (< 3.5l / min): Part no. 0010-00461

Aerator with chrome tap adapter M 24a
 (suitable for taps with internal thread at the outlet)

CSP 3a (< 2l / min): Part no. 0010-0043

CSP 6a (< 3.5l / min): Part no. 0010-0047

Aerator with chrome tap adapter M 22i
 (suitable for taps with external thread at the outlet)

CSP 3i (< 2l / min): Part no. 0010-0042

CSP 6i (< 3.5l / min): Part no. 0010-0046

Aerator insert for tap adapter M 22/24 at the tap

CSS: Part no. 0010-00504

Aerator with chrome tap adapter M 22i
 (suitable for taps with external thread at the outlet)

CSSi: Part no. 89125
